~~~ ABOUT US ~~~

Nestled in the foothills of the majestic Himalayas, The Pestle Weed School, established in 1992, is not just an institution of learning but a legacy in education. Spread across a sprawling 55-acre green campus, it is truly a home away from home a vibrant community where young minds grow, flourish, and prepare for the challenges of tomorrow.

Life here is a beautiful blend of discipline and freedom, tradition and innovation, academics and co-curricular excellence. From the crisp morning assemblies that instill values of punctuality and unity, to the lively classrooms buzzing with curiosity and creativity, every day at Pestle Weed is a new chapter in learning.

Our lush campus is alive with the spirit of exploration students debating passionately in the auditorium, sports enthusiasts practicing on the fields, and artists filling the corridors with colors and melodies. The bond between teachers and students goes beyond textbooks; it is a relationship of mentorship, guidance, and inspiration.

But Pestle Weed is more than academics and activities it is a family. The boarding life here teaches responsibility, friendship, and resilience. Shared laughter in the hostels, evening study hours, and festive celebrations weave memories that last a lifetime.

Today, The Pestle Weed School stands tall as a beacon of holistic education, where every child is encouraged not only to excel but also to dream, to lead, and to serve society with compassion. It is here that a legacy of excellence since 1992 continues to inspire generations.
